

# Daytimer Teaching Sample Cut-outs

*Instructions: Cut along the gray lines and cut out the black circle. Use these cut-outs with the 11x17 Teaching Sample to illustrate the use of the Daytimer. As you progress through the “Quality of Life” day of the Office Teaching (see QoLI-002 for more information), use this teaching sample and the cut-outs to add structure to the day of teaching, thereby showing caregivers how to structure the Individuals’ days.*
